Natural**CARE & MAINTENANCE**

To maintain the beauty and longevity of the upholstery fabric, vacuum regularly using a soft brush attachment to remove dust and debris. Clean spills immediately by gently blotting with a clean, absorbent cloth, avoiding rubbing the fabric as this may spread the stain. For stubborn stains or deep cleaning, professional upholstery cleaning is recommended. If the fabric cover is removable, machine wash at 30°C on a gentle cycle, do not bleach, iron at a low temperature if needed, and do not tumble dry; allow it to air dry naturally. Avoid prolonged exposure to direct sunlight to help preserve the fabric's color, texture, and overall appearance.
